

Uploading Photo To Player Profile

IMPORTANT IF YOU ARE A PARENT: Photos must be added to the specific **player (child)** profile, not your own.

Typically, parents will be accessing the system through their own user account login not the player's (child's) profile. To find your associated players, you will click "Account" in the top menu bar. Next click on "Family" in the left navigation bar. Click into the specific player and follow the instructions below:

****Please note that your child's profile photo will be used on match/player cards, etc.****

Photo Requirements

- Photo size: 0 MB - 3 MB.
- Photo type: JPEG, JPG, PNG
- Photos taken on an iPhone with live photo mode on, will not upload

When you are in your player's profile, click "Choose" file in the photo section to upload your players photo.
